**AUTOMATIC KNIVES FOR
MILITARY AND
LAW ENFORCEMENT**

MADE IN AMERICA

REFLEX #2000
MINI REFLEX #2500

Our Model 2000, Reflex, is our largest automatic knife. It features a unique handle design with finger grooves and a modified bird's beak handle for a secure grip. This handle design with finger guard in the rear allows it to be used as a blunt instrument. The large single edge ATS-34 blade offers maximum utility for a duty blade; available plain edge or with ComboEdge serrations,

gray tactical, bead blasted blade and black hard coat anodized handle only. Black nylon sheath included.

Our Model 2500, Mini-Reflex, offers all of the features of the Model 2000, but in 2/3 scale. Due to the overwhelming requests of our customers, we now offer this popular design in a smaller, thinner knife. This is a perfect sized knife for every-day use. Available plain edge

or with ComboEdge serrations. A pocket clip is standard. Available in gray tactical bead blasted blade and black hard coat anodized handle only.

THE SPIKE #1000

Our Model 1000, Spike, offers a compact unobtrusive carry profile. The Spike features a smooth snag free styled handle, machined from 6060-T6 aluminum, coupled with a single edge symmetrical taper utility blade ground to provide and maintain a razor sharp edge. Available plain edge or with ComboEdge serrations. An optional pocket clip can be added for additional carry flexibility. Several hard coat anodized colors are also available.

THE MEL PARDUE #3000

Designed by custom knife maker Melvin Pardue, our Model 3000, is a sleek, handsome knife that reflects the classic lines and mechanical genius for which Mr. Pardue is known. The graceful semi-spearpoint blade is satin finished, the aluminum handles feature improved grip properties with the incorporation of flush mounted black Kraton inserts. Pocket clip is standard. Available plain edge or with ComboEdge serrations. Handle colors available in clear (gray) or black hard coat anodized finish. Also available without clip.

THE AFO #9000

Our Model 9000, Armed Forces Only (AFO), is now being used throughout the entire spectrum of Tactical Law Enforcement, Military, Emergency Rescue Response, and all affiliated Aviation communities. This very practical duty knife is being sought after to replace existing folding knives because of its ease of operation, dependability, and rugged construction. The AFO features a utility gray tactical bead blasted blade with either a plain edge or ComboEdge serration made from ATS-34, a fully machined Aluminum handle that is compact and comfortable, a Hard Coat Anodized finish, and the option of a pocket clip. Black Nylon sheath included.

THE SPIKE #1000

BENCHMADE®

Our automatic opening knives are rugged and innovative general-purpose cutting tools ideal for police, military, aviators, air deployment and emergency rescue personnel who understand and require the outstanding utility this reliable and dependable series of lifesaving knives afford.

Beginning with our initial issue of the Armed Forces Only (AFO) model 9000, Benchmade Knife Company now offers a complete line of automatic knives that provide the ultimate in reliable function exhibiting the outstanding strength, durability, and cutting ability Benchmade Knife Company products are known for.

This series of knives all feature our powerful coil spring blade actuator coupled with a taper lock mechanism that has proven to be the most reliable operational system available for this type of duty knife. These knives have been designed to operate reliably, time after time, in the worst field conditions with minimum maintenance.

IN COMPLIANCE WITH FEDERAL STATUTES:

Although automatic opening knives are not subject to prohibitive legislation in Oregon*, many states are not so fortunate. Federal law prohibits shipment of automatic knives across state lines, with the following exceptions:

(1) to civilian or Armed Forces supply or procurement officers and employees of the Federal Government ordering, procuring, or purchasing such knives in connection with the activities of the Federal Government; (2) to supply or procurement officers of the National Guard, the Air National guard, or militia of a State, Territory or the District of Columbia ordering, procuring, or purchasing such knives in connection with the activities of such organization; (3) to supply or procurement officers or employees of the municipal government of the District of Columbia or of the government of any State or Territory, or any county, city or other political subdivision of a State or Territory; (4) to manufacturers of such knives or bona fide dealers therein in connection with any shipment made pursuant of an order from any person designated in paragraphs (1), (2), and (3).

Benchmade Knife Company, Inc.'s. automatic knives carry no warranty except as contained herein and the warranty of merchantability is expressly excluded. Benchmade Knife Company, Inc. disclaims any liability for consequential damages of any kind. We will replace or repair at no cost any defective knife that is returned to the selling dealer and found to be defective.

Note:

Available for sale to Oregon customers* and those Armed Forces or Law Enforcement or Government personnel outside the State of Oregon. Please check permissibility within your state or locality.

*Not to be carried concealed.

Please consult your price list for additional models and colors. Specifications subject to change

The reason we over build our products is to ensure that, in a worst case scenario, their reliability may make the ultimate difference between success and failure.

We are involved in the design and manufacture of every component of our knives. We have found that if we want it done right, we must do it ourselves. We do it all in-house utilizing the newest technology available including laser cutting, CNC machining, screw machining and computerized inspection equipment. All this was necessary to create and maintain the total quality management manufacturing environment necessary to produce our high quality benchmade products. You can be sure that Benchmade Knife Company's commitment to quality is guaranteed not only by our corporate willingness to invest in, and utilize the latest technology, but most importantly by the personal commitment embraced by all of our skilled people: "Made in America...The best there is!"
